

UPOFLOOR®

MAINTENANCE

UPOFLOOR TELON

Initial cleaning

Wash with alkaline detergent solution. Do not use abrasive cleaning implements. Dry the surface carefully after washing.

Initial polishing

Initial polishing is not necessary.

Daily maintenance

Damp or wet clean with a mild alkaline detergent solution, depending on type of soiling. The use of care maintenance agents also recommended.

Stain removal

All stains must be removed immediately to avoid permanent marks.

Warning

Stain remover may affect the covering or the adhesive. When in doubt about the effect of stain remover carry out a test or contact the product manufacturer.
